ABOUT

MANIFESTO! was originally developed as part of the Words in Freedom Project at Madeira ITI in 2019 by Julian Hanna, Simone Ashby, Sónia Matos, and Alexis Faria, with additional help from Callum Nash. The Art+AI Edition was developed at Tilburg University in 2023 by Simone Ashby, Julian Hanna, and Alwin de Rooij, with additional help from Michelle Kasprzak, as part of the Futures of Europe research group.
MANIFESTO! was inspired by Situation Lab's The Thing From The Future and is published under a CC BY-NC-SA license.

We'd love to hear from you!

GAMEPLAY

MANIFESTO! is a game for individuals or groups of 2-6 players. For each round, player(s) are dealt 1 random card from each of 3 categories: Provocation, Opening, Tone. Substitutions are allowed. The Provocation gives you the topic or theme of your manifesto; the Opening gives you a starter phrase; the Tone is the register you assume in addressing your audience or subject matter. These are your 3 constraints: use them as prompts to write, sing, draw or build your manifesto. Once this round is complete, vote for the best manifesto, or try a new round.

Caution will get you nowhere! Disseminate and share photos of your #manifestogame and #artandaimanifestos on Instagram @futures_of_europe, and use them to start a revolution of your own.
